

KLAES WEB TRACKING

TRANSPARENCY THROUGH DIGITAL TRACKING!

Klaes web tracking enables transparent tracking of orders for dealers and fitters. The current status of an order can be viewed at any time via secure web access - regardless of opening hours or location.

Whether it's the start of production, completion or delivery: all relevant information on the progress of an order is available online. There are no queries or waiting times, as the current status can be checked independently at any time.

Klaes web tracking creates trust, improves communication and offers a modern service that provides long-term support for cooperation with retailers and fitters.
