

THE INTELLIGENT DOCUMENT MANAGEMENT SYSTEM

ELO

With **ELO**, companies can digitise and organise their business-critical documents efficiently and in compliance with GoBD. Direct integration with Klaes software enables quick access to the ELO archive - without switching programmes and with maximum time savings. ELO offers the right digital document management solution for every company.

ELO INTEGRATION IN KLAES:

- Direct access to the ELO archive via the Klaes interface
- Quick search and management of all archived documents
- Automatic archiving and tagging upon printing the original
- Standardised, transparent workflows
- Improved data quality and legal compliance (GoBD-compliant)
- Customisable and integrable into existing IT structures

FOR EVEN GREATER EFFICIENCY:

- **Automatic email archiving with ELO XC:**
Emails are stored directly from the inbox in an audit-proof and GoBD-compliant manner
- **Automatic document archiving with OCR2ELO:**
Documents are recognised via text recognition, tagged with keywords and stored in the ELO archive
